

Linking a Group to a NASP School/Org

Overview

This guide explains how to link a group in ArrowScores to a NASP School/Org. Linking a group enables NASP-restricted tournament registration and optional importing of archers from the NASP system.

1. Link Your Account to NASP BAI Certification

Important: Your account must be linked to your NASP BAI certification before you can link a group to the NASP system.

Sign in to ArrowScores.com (if not already).

Click the Account icon (top-right corner).

Select Account Dashboard.

Navigate to Account NASP Link.

If not linked, click Link Now and sign in to your NASP account when prompted.

2. Create or Select a Group

From the Account Dashboard, select Account Groups.

Create a new group or select an existing group you manage.

3. Link the Group to a NASP School/Org

Open the group in Group Manager.

Click Add NASP Link (or Manage NASP Link).

Choose Link for the NASP School/Org you want to connect to this group.

Note: You will only see NASP schools/orgs that your NASP BAI account is associated with on nasptournaments.org.

4. Confirm the Link

After linking, the group will display the connected NASP School/Org.

You can now import archers from the NASP system if needed (see the Importing Archers guide).

5. Register for NASP-Restricted Tournaments

Troubleshooting

If you do not see your NASP School/Org, ensure your BAI account is associated with that school/org on nasptournaments.org.

If you see a message that your BAI status is not active, renew your BAI certification in the NASP system.
