

Registering for a land-based tournament on ArrowScores.com

After logging in to arrowscores.com, navigate to the tournament you are registering for and click the Registration.

The screenshot shows the ArrowScores.com website interface. At the top, there is a navigation bar with the ArrowScores logo, menu items for Tournaments, Organizations, Help, and About, and a user profile icon. Below the navigation bar, the page title is "Demo". A yellow button labeled "Registration & Info" is visible. A blue notification banner states: "Scores for this tournament have not yet been processed And finalized. Please check back for updates." The main content area is divided into two columns. The left column contains "Tournament Dates 12/27/2024 12:00:00 AM-1/16/2025 5:00:00 PM" and a "How to Register" section with two options: "Register Online (Recommended)" with a green "Registration" button, and "Register through the tournament host." The right column displays the tournament location: "Frankfort Test Range, 1 Sportsman's Ln, Frankfort, KY 40601" with a "Google Directions" link.

Begin Registration

Some tournaments allow registration in two ways: as part of a group (e.g., school, church, or club) or as independent archers not associated with a group.

1. **Group Rosters** – If the tournament permits group registration, and you plan to register archers representing the same group (school, church, club, etc.), select the **Group Roster** option. You will then be prompted to select the group's name to begin registration.
2. **Non-Group Rosters** – If you are registering individual archers not participating as part of a group (school, church, club, etc.), choose **Non-Group Roster**

Note: Even if you are only registering one archer (possibly yourself), the system still defines that as a roster.

Note: If a tournament does not allow both group and non-group rosters, the system will automatically direct you to the appropriate registration form without asking for a choice.

Registration is closed. Administrative add/changes are allowed

Registered Archers

[Add Archers](#)

Add Archers

Once you have created the registration, you can add archers to your roster by clicking the Add Archers button.

If you are adding archers for a group registration, all archers previously registered for the group should be available. You can also add new archers.

If you are adding archers for a non-group registration, archers previously added under your account should be available. You can also add new archers.

Add all the archers for your roster.

When adding each archer you will need to select a shooting class.

Team Scoring Groups

If the tournament allows team scoring, after adding your archers to your roster, click Team Scoring Groups on the Roster page to create your team scoring group(s) and add archers to those team scoring groups. A roster can have more than one team scoring group if allowed by the tournament.

Shooting Time/Flight Selection

If the tournament allows shooting time/flight selection, after you have added archers to your roster click the Shooting Time Management link in the menu section of the roster page to make selections for each registered archer.

Archer Registration Fee Payment

If payment is required, you can make that payment after adding archers to your roster by clicking the Payment link in the menu section of the roster page.
